

PRODUCT DATA SHEET OF READY MIX COOLANT

Description

ACCERON READYMIX COOLANT is a silicate free ready-mixed antifreeze coolant, and works over a wide operating temperature range for effective engine cooling in all climates.

ACCERON READYMIX COOLANT requires no customer dilution therefore ensures the correct concentration is always used, providing year round protection against corrosion, and offers freezing protection down to -36°C..

Application

ACCERON READYMIX COOLANT is a long-life coolant based on monoethyleneglycol, it is suitable for use in a wide range of vehicles, including cars, trucks and buses, for both petrol and diesel engines. In contrast to traditional antifreeze coolants, ACCERON READYMIX COOLANT does not contain Amines, Nitrites, Phosphates, Silicates or other inorganic inhibitors. For maximum performance ACCERON READYMIX COOLANT should not be mixed with other coolants. It is therefore recommended that cooling systems should be drained and flushed before re-filling with diluted ACCERON READYMIX COOLANT.

Typical Characteristics

Name	Method	Units	Reports
APPERANCE	VISUAL	-	FREE AND CLEAR
SEDIMENT MG/L	SUPPLIER	MG/L	NOT PRESENT
COLOUR, VISUAL	VISUAL	-	BLUE
FREEZING POINT °F	ASTM D1177	°F	-38
SPECIFIC GRAVITY AT 38°F	ASTM D1122	NONE	1.0795
